# INTERSTATE FERTILIZERS

## APPLYING THEM IS LIKE PLANTING DOLLARS

INTERSTATE FERTILIZERS are made of plant foods, so mixed that the food is available to the plant all through growth. Never is the crop starved. The needed elements are supplied at the right time. The crop is nourished to a full growth.

Therein lies the skill of mixing fertilizers. We make these fertilizers as accurately as a druggist compounds a doctor's prescription. The analysis on every bag is lived up to. There is no guess work—no mystery.

It is but the result of scientific mixing. We must know what are the best sources of plant foods—which are quickly available—which are slower—which are slowest.

It must be known exactly what elements are drawn from the soil by each crop—the amount of plant foods that they require. It would be utter waste to apply certain plant foods upon certain soils for certain crops.

So we have INTERSTATE FERTILIZER for each crop that the South grows. The needed elements are supplied. The fertilizer is suited to the soil and crop.

And that is why INTERSTATE FERTILIZERS are winning prestige everywhere—why they are causing increased yields.

Our booklet would prove interesting to you. It tells of our tested formulas for Southern crops. Write for it to-day and the name of our nearest dealer.

BALD HEADS NOT WANTED.

Baldness is Too Generally Considered a Sign of Advanced Age.

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit, and refuse to take men over 35 years of age as new employees. Probably 85 per cent. of bald-headed people may retain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word, or hesitate to put our remedy to an actual test.

We want every one in Abbeville who is suffering from any scalp or hair trouble, dandruff, falling hair, or baldness to try our Rexall "93" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected, and we exact no obligation from the user whatever.

We are established right here in Abbeville, and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord to our customers, and we would not dare make the above offer unless we were positively certain that we could substantiate it in every particular. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, C. A. Milford & Co.

THE DANGER OF LA GRIFFE

It is fatal tendency to pneumonia. To cure it, take Foley's Honey and Tar Compound. R. E. Fisher, Washington, Kas., says: "I was troubled with a severe attack of la grippe that threatened pneumonia. A friend advised Foley's Honey and Tar Compound and I got relief after taking the first few doses. I took three bottles and my la grippe was cured." ## DEATH OF EUGENE BASKIN

News was received here Sunday of the sad death of Eugene Baskin, of Lowndesville, who was struck by a passenger train and instantly killed in Iowa Saturday morning. His brother, Charles Baskin, of Michigan, was notified of the death of his brother and he left immediately for Iowa. He will leave there tonight with the body and will reach here the latter part of the week. He was the son of Mr. and Mrs. James Baskin, of Lowndesville, and a brother of St. Clair Baskin of this city. The grief stricken family have the sympathy of their many friends.

## NATURE TELLS YOU

As Mary an Abbeville Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's index. Infrequent or too frequent passage. Any urinary trouble tells of kidney ills.

Doan's Kidney Pills are for the kidneys only. Abbeville people testify.

J. W. Smith, No. 98 Factory Hill, Abbeville, S. C., says:

"When I had trouble from my kidneys I used Doan's Kidney Pills and they helped me quickly. There were pains through my back and sides and when I stooped or lifted, I felt the trouble the most. My kidneys were disordered and the kidneys secretions passed too frequently, often being attended with pain. My supply of Doan's Kidney Pills was obtained from P. B. Speed's Drug Store and they soon relieved me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## LOWNDESVILLE.

Happenings of a Week In and About the Seven-Hilled City—Personals.

Some of the expected home changers, wanted to begin the new year in their new home, failed the week before last, hoping for better weather. The next week, were disappointed, the weather became worse and many are still where they were.

Last Saturday night a week ago, every thing that was exposed was covered with snow, to a depth of from one to two inches, only in places did it melt the next day. Monday morning a slow rain was falling, much of it freezing as it fell and soon everything in reach had a coating of ice upon it, which was added to during the day. This adding of snow to snow and ice to ice, made the melting of it very slow. Then Thursday night and much of the day Friday there was a snow blow, which gave us from two to three inches of snow all of which has made it very difficult to travel, as well as dangerous and those who could do so stayed as near to their home fires as possible—the most of the moving about has been by the peoples line in line hat, that could not be avoided. It is to be much desired that the competent authority, if there be such, would issue an injunction, for bidding the weather man to bring any more such weather for sometime to come.

It will be remembered that on the 25th of August 1909, we had a pretty good size flood, which carried off the bridges on Rocky River and among them, the one across that stream known as the Allen bridge. The iron for rebuilding it came to the depot here a few days ago and it is supposed that they will be put in place soon, if the weather gets better.

Word came to us Saturday morning by wire, that Mrs. R. W. Barber was critically ill at Sampt. Her daughter Mrs. E. J. Huckabee, left a once on freight train for above place.

During the Xmas holidays Mr. Eugene Baskin, railroading in Michigan, was with his father, Mr. Jas. T. Baskin and family in robust, vigorous young manhood, with the prospect of long life before him, but alas! we know not what a day may bring forth, the sudden news reached us by wire yesterday morning that he had been killed by he rail road train and that his remains would be brought here for burial as soon as possible. As yet no particulars are known.

Later on more will be given.
